Custom Product Manufacturing Available | Flexible Service | Fast Turnaround | Lifetime Warranty
For nearly 50 years, we have established sewing industry standards. Our innovative designs and high quality workmanship have made us a leader in the industry. We provide well-designed, high quality and practical products. Nearly all of the products you see in this catalog are made in our shop in Oakwood, Ohio. We use absolutely the strongest, highest quality, USA sourced materials available.

These items represent the stock items manufactured by R&B Fabrications, Inc. We have also designed hundreds of other items, and our expert design department can build products to suit your specific needs. Custom silk screening is available for an additional charge. We will be happy to quote on your special requirements.

We make the highest quality products available and we back them with a full warranty.

**A BRIEF HISTORY**

R&B Fabrications, Inc. started out as a part time hobby 48 years ago in a one-car garage, repairing canvas products and making custom boat tops. Five years later, we built our first building and started making cushions for Braun Industries custom ambulances. We also ventured into a line of bags for the horse industry and also collars and leadstraps for hunting dogs.

In the late 1970s, Ron took basic fire and EMS training and joined the Oakwood Volunteer Fire Department and Oakwood EMS. Dan, Ron’s son, grew up in the family business. Upon his high school graduation, Dan joined the company with his father and also joined the fire department and EMS. At that time, they saw that there was an opportunity to develop a line of products that related to the fields of fire, EMS and law enforcement. Ron and Dan’s combined time in the fire and EMS gave them the knowledge to design and manufacture the products that the customers needed. In order to supply the demand that the opportunity had provided, two additional adjoining buildings were built.

We learned early on to make a high quality product that you can be proud of.
Here are some little known facts about my dad, Ron Eakins. He has dedicated his entire life to doing everything right the first time. Upon graduating high school, he joined the United States Marine Corps. He became an Expert Marksman on the USMC Rifle Team with Carlos “White Feather” Hathcock. Upon returning to civilian life he worked for his parents, Carson & Donaldine Eakins, in the family-owned Charloe Store. On his days off, Ron taught himself how to sew, which forever changed the direction of his life. He and my mom, Brenda, built R&B Fabrications, Inc. from the ground up, in the backyard, where we all grew up. 2019 marks 48 years since the beginning of R&B Fabrications and also marks Ron’s 50th year on the Oakwood Volunteer Fire Department. From firefighter to Chief, he has served every position. I just want to say, “Thank you dad for a wonderful life and all you have taught me, and I’ll see you at work on Monday morning!”

-Dan Eakins, President
Safety Vests

**PLAIN MESH SAFETY VEST**

#001OR  #001NV  #001BR  #001RD  
#001RB  #001WH  #001GR  #001BK  
#001LG  #001YL  

Constructed of extra strong vinyl coated nylon mesh, edges are bound and double stitched with nylon binding. Adjustable on each side with side release nylon buckles. Designed with our standard high quality workmanship. Available in all colors (see below). This vest weighs 6 oz. and has overall dimensions of 22”L x 19”W.

**THE "ABCD" VEST**

#001OR-ABCD  

The “ABCD” Vest is designed so that a single ID vest can be quickly configured to identify the captain, division supervisor, or other officer assigned to the ALPHA, BRAVO, CHARLIE, or DELTA side of a building. One pair of reversible title panels are imprinted with ALPHA and BRAVO, and a second pair of panels are imprinted with CHARLIE and DELTA. The panels feature loop VELCRO® strips on the perimeter of each panel which adhere to a VELCRO® patch on the vest. The nylon mesh vest is available in all colors (see below) weighs 6 oz and has overall dimensions of 22”L x 19”W.

**MESH SAFETY VEST FOR THE INCIDENT COMMAND AND TRIAGE/MC SYSTEM**

#003OR  #003NV  #003BR  #003RD  
#003RB  #003WH  #003GR  #003BK  
#003LG  #003YL  

Constructed of extra strong vinyl coated nylon mesh, edges are bound and double stitched with nylon binding. Each adjustable side has side release nylon buckles. Shoulders have 3M™ Scotchlite™ Reflective Material on front and back and a 4”x18” 3M™ Scotchlite™ Reflective Material panel with title in black on the front and back. Lime yellow 3M™ Scotchlite™ Reflective Material is used on all colors of mesh. Available in all colors (see below), weighs 10 oz. and has overall dimensions of 22”L x 19”W.

---

**LARGE VESTS**

All vests above are available in large. The large is made of the same high quality materials and is available in the same colors and title options. The dimensions are 28”L x 25”W (6 inches longer and wider)

COMMAND VEST WITH TITLE OR PLAIN FRONT
#006OR - PLAIN FRONT WITH TITLED BACK
#006RB - PLAIN FRONT WITH TITLED BACK
#006LG - PLAIN FRONT WITH TITLED BACK

#006OR - FRT TITLE FRONT & BACK
#006RB - FRT TITLE FRONT & BACK
#006LG - FRT TITLE FRONT & BACK

Our Command Vest comes with two options. This vest comes with a plain front with a title panel on the back, or comes with a split title panel on the front in addition to a title panel on the back. The front opening is fastened with a hook and loop closure. This vest is made of extra strong vinyl coated nylon mesh. The edges are bound and double stitched with nylon binding. Adjustable on each side with release nylon buckles. Lime yellow 3M™ Scotchlite™ reflective stripes are used on all colors. Available in three colors: orange, royal blue, and lime green. This weighs 10 oz and has dimensions of 22”L x 19”W.

TITLED MESH VEST
#005OR  #005NV  #005BR  #005RD
#005RB  #005WH  #005GR  #005BK
#005LG  #005YL

Constructed of extra strong vinyl coated nylon mesh, edges bound and double stitched with nylon binding. This vest is a pull over with adjustable straps on each side with side release nylon buckles. 4” x 18” 3M™ Scotchlite™ Reflective Material panel with title on front and back. Designed with our standard high quality workmanship. Lime yellow 3M™ Scotchlite™ Reflective Material used on all colors of mesh. Available in all colors (see below), this weighs 10 oz. and has dimensions of 22”L x 19”W.

MESH SAFETY VEST WITH WINDOW
#003 - WINDOW
#005 - WINDOW

This vest is designed to be used for on the scene, when a special title is necessary. It features a 6” x 15” window with a lime yellow poster board insert that can be removed and the special title printed on it. This window replaces the standard 3M™ Scotchlite™ Reflective Material panel. All other specifications remain the same including the pricing. Available in all colors, this weighs 10oz. and has dimensions of 22”L x 19”W.

FIRE COMMAND VEST SET
#022-3 003L VEST  
#022-5 005L VEST  
#022-6 006L VEST  

This prepackaged set includes 10 large size orange vests in either #003L, #005L or #006L vest (see pages 4 and 5 for details). It also includes a #009RD carrying case (listed below). This weighs 128 oz.

Titles: Incident Commander, Safety Officer, Operations, Staging, Accountability, Rehab, Information Officer, Air Supply, Water Supply, Window

IC/MC VEST CASES
#008-RD
Designed to carry 8 regular size incident command vests in #003, #005 or the #006 (see pages 4 and 5 for details) in the elastic loops. An interior slot pocket allows for a command board up to 14” x 18”. It is constructed with Cordura® nylon and has a 4” x 18” reflective panel on the side. This is a case only and comes only in red and weighs 16 oz. with overall dimensions of 19”L x 15”H x 5”D.

#009-RD
Designed to carry 10 large size incident command vests in #003L, #005L or the #006L (see pages 4 and 5 for details) in the elastic loops. An interior slot pocket allows for a command board up to 18” x 24”. It is constructed with Cordura® nylon and has a 4” x 18” reflective panel on the side. This is a case only and comes only in red, weighs 22 oz. and has overall dimensions of 19”L x 25”H x 5”D.
**BARIATRIC TRANSFER SHEET**

**THE BIG ROGER**

#181 YL

This is constructed of 2 layers of impervious 22 oz. nylon reinforced vinyl that will not absorb body fluids. All weight bearing webbing straps cross through the middle of the device, where the patient’s weight is centered. The double stitched webbing design provides a better weight distribution while lifting and transporting. All webbing ends are box “X” stitched and bound over for additional strength. A storage bag is included. Weight capacity of 700lbs. Measures 60” X 80” with a total weight of 80oz. and comes in yellow.

---

**BARIATRIC TRANSFER SHEET WITH BACKBOARD INSERT**

#181 YL-BB

The #181YL-BB is the second generation of our original Big Roger. Constructed of the same material, a sleeve has been sewn to the bottom to allow a 16” wide or 18” wide backboard to be inserted into the center of the transfer sheet. The rigid insert provides a base when moving a patient that requires a flat rigid surface. Storage bag is included. Weight capacity of 700 lbs. Measures 60” x 80” with a total weight of 90 oz. and comes in yellow.

---

**TACTICAL/EMERGENCY SOFT STRETCHER**

#182 RD

#182 BK

This stretcher was designed with the intention of moving an injured person rapidly. It is constructed of 22 ounce vinyl. To use as a one-person drag, simply connect the black strap around the person’s chest, grab the red web handles at the end, and go. The 8 black web handles also allow the sheet to be used as a soft stretcher. A storage bag is included. Weight capacity of 600 lbs. Measures 80”L x 26”W with a weight of 64 oz. Red and black are the available color choices.
Patient Transfer

SPEED STRETCHER
The R&B Speed Stretcher is a flexible and easily conveyable alternative to back boarding. The design is ergonomic, strong and durable. It is constructed using 22 oz. heavy weight vinyl with hardwood oak slats positioned between two layers of material for superior strength. PVC hand grips provide a secure hold while three 2” polypropylene webbing straps, with side-release buckles, keep the patient secure. The Speed Stretcher’s vinyl construction makes it easy to clean with soap and water and is also very resistant to chemicals.

SPEED STRETCHER
#183OR
#183BK
Weight capacity of 700 lbs. Open Dimensions: 78”L x 28”W and Closed Dimensions: 58”L x 6”W. This weighs 15 lbs. and is available in orange or black.

XL SPEED STRETCHER
#184OR
#184BK
10” wider and an additional 4 handles, with a weight capacity of 900 lbs. Open Dimensions: 78”L x 38”W and Closed Dimensions: 58”L x 11”W. This weighs 20 lbs. and comes in orange or black.
Patient Transfer

**BOARD HARNESS WITH VELCRO®**
AKA spyder strap

This board harness system is for securing a patient to a backboard. Constructed of nylon webbing with Velcro® hook and loop closure. An adjustable spacer keeps the cross straps in place during placement and prevents all straps from falling together. A storage bag is recommended and is found below.

#BB-30: 40” span with a weight of 32 oz.
#BB-30-XL: 55” span with a weight of 38 oz.

**BOARD HARNESS BAG**
#BB-10
Holds either of the board harnesses.
Dimensions: 7” x 22” with a weight of 10 oz.

**IMPERVIOUS BACKBOARD STRAP**
#BB-159 OR
These backboard straps are sold in sets of 3 and use hook and loop closure to secure your patient to the backboard. 2 inch nylon webbing is encapsulated with a thermoplastic polyurethane coating, which prevents trapping of body fluids or airborne contaminants. The coating provides a durable, abrasion resistant finish. It is adjustable from 24” to 44” and weighs 26 oz. It is available in orange.

**CERVICAL COLLAR CARRYING CASE**
#685OR
Designed to hold a set of 6 cervical collars, it has a Velcro® closure and a web carrying handle. Made of Cordura® nylon and measures 26”L x 10”H. It weighs 8 oz. and is available in orange.

**C-COLLAR STORAGE BAG**
#684 ADULT C-COLLAR STORAGE BAG (Holds approximately 5 collars)
#683 PEDI C-COLLAR STORAGE BAG (Holds approximately 4 collars)
This storage bag attaches to the inside of a compartment door. Four, size 0 grommets are in the corners for attachment. It is constructed of royal blue Cordura® nylon. The adult measures 22”H x 9”W x 4”D with a weight of 10 oz. The pedi measures 19”H x 7”W x 3”D and weighs 8 oz.
HOW DO YOU TEST A TUFF BOTTOM?
We started this process by contacting several testing laboratories. We found that the cost to test was pretty outrageous and the terms used to describe the testing process was similar to reading a foreign language.

So, after being discouraged with my initial test research, I had a brilliant idea. I figured there is nothing better than a real world test to prove whether or not a Tuff Bottom could hold up in the field. The first real world test included filling the bag with 20 pounds of stone. Then, I took a tow strap and attached the bag to the back of my H1 Hummer. So away I went, dragging the bag down the road behind me. I decided I should cover all of my bases, so I drug the bag over asphalt, concrete and even gravel roads. These roads weren’t freshly paved roads, but rather Ohio back roads that are filled with potholes, cracks and fresh tar. I started off at about 20 miles per hour. To my amazement, the bag just kept sliding right along behind me. After 10 miles of dragging, I decided to give the Tuff Bottom the stamp of approval on being a real world durable product. The bottom line is the R&B Tuff Bottom is truly rugged. It’s designed to take a beating and ask for more. So, the next time you are looking for the most durable bag you can get your hands on, look for an R&B Tuff Bottom Bag! You won’t be disappointed in your decision.

WHAT IS A TUFF BOTTOM?
A Tuff Bottom is a heated, compressed and molded sheet of high density cross-link polyethylene foam. Tuff Bottom is suitable for any surface.

Ron Eakins
Vice President
INTERMEDIATE TRAUMA BAGS
R&B Fabrication’s Pacific Coast Series bags and packs are the highest quality line available. The outer shell is constructed of Cordura® nylon. The bag includes a fully padded insert with adjustable dividers to keep supplies organized and protected. The molded Tuff Bottom provides an almost indestructible base. Four outside pockets surround the main compartment. The front pocket contains numerous elastic loops and slot pockets. #10YKK heavy duty nylon zippers are used throughout the bag and are reversed to eliminate wear on the coil, prolonging the life of the strongest zipper on the market. It comes with an adjustable nylon shoulder strap.

INTERMEDIATE I TRAUMA BAG
Available color choices are: red, royal blue and orange. It weighs 70 oz. and is 18”L x 14”W x 11”H.

INTERMEDIATE II TRAUMA BAG
Available color choices are: red, royal blue and orange. It weighs 82 oz. and is 22”L x 14”W x 11”H.
MEGA MEDIC’S BAG

The outer shell is constructed of Cordura® nylon. Four interior options make these bags extremely customizable. Choose from a fully padded insert with adjustable dividers, a padded insert with oxygen tank straps and pouch pockets, a “Z” Pak removable storage insert, or keep the main compartment empty. All insert options may be removed for cleaning. The bag is designed to hold a “D” or Jumbo “D” oxygen cylinder, with access to the regulator through the end pocket. The Tuff Bottom provides an almost indestructible base. Four outside pockets surround the main compartment. There are two pockets on the front that have multiple elastic loops and slot pockets. Inside the lid is a large zippered pocket. #10YKK heavy duty nylon zippers are used throughout the bag and are reversed to eliminate wear on the coil, therefore prolonging the life of the strongest zipper on the market. It comes with an adjustable nylon shoulder strap. Available color choices are: red, orange, and royal blue. It weighs 130 oz. and has overall dimensions of 27”L x 15”W x 12”H.

“Z” PAK - TRAUMA BAG SUPPLY INSERT

#ZPAK01
This foldable trauma bag insert makes finding the items you need quick and easy. It is designed to hold all the essential trauma supplies, as well as a “C” cylinder for oxygen. The insert is constructed of nylon pack cloth and clear vinyl with YKK zippers that provide secure closure for the pockets. This weighs 48 oz. and has an open dimension of 18”W x 34”L.

Designed to fit in any trauma bag with a main compartment opening of at least 18” L x 9” W x 11”D.

“Z” PAK MAX - LARGE TRAUMA BAG SUPPLY INSERT

#ZPAK02
This extra large foldable trauma bag insert makes finding the items you need quick and easy. It is designed to hold all the essential trauma supplies as well as a “D” cylinder for oxygen. The clear view pockets keep everything in plain sight. It is constructed of nylon pack cloth and clear vinyl with YKK zippers providing secure closure for the pockets. This weighs 40 oz. and has an open dimension of 21”W x 35”L.

Designed to fit in any trauma bag with a main compartment opening of at least 21”L x 9” W x 11”D.
PEDI PACK
#RB 829-P
Be prepared when dealing with pediatric emergencies. This compact pediatric pack keeps all the equipment needed for pediatric emergencies organized without the needless repetition of supplies. The outside front pocket has ample room for a child BVM and a 1000cc IV pack and is stored without crushing the equipment. The double self healing zippers allow easy access to the interior which has an abundance of storage for advanced and basic supplies. Elastic straps hold the intubation equipment. A standing divider, with nylon pockets, holds items ranging from pediatric size guides to oxygen supplies. The quick release handles allow the bag to be opened and closed quickly therefore securing equipment even with the zippers unzipped. It is constructed of tough Cordura® nylon and reflective trim. The back of the pack is made of heavy vinyl assuring durability and easy cleaning. The advantages of this pack include being lightweight and offering organization unlike other packs. This comes in purple and has a total area of 1183 cubic inches. It weighs 40 oz. and has overall dimensions of 13"L x 6 ½" D x 14"H.
MEGA MEDIC’S ROLLER BAG
#RB A650X-RB-W
#RB A650X-OR-W
This is the highest quality trauma/oxygen bag on the market today. The outer shell is constructed of Cordura® nylon. The interior liner is constructed of nylon pack cloth and high density foam for equipment protection and stability. The liner may be removed for cleaning by hand washing with mild soap and water, then allowing to air dry. It is designed to hold a “D” or Jumbo “D” oxygen cylinder with access to the regulator through the end pocket. #10YKK heavy duty nylon zippers are used throughout the bag and are reversed to eliminate wear on the coil therefore prolonging the life of the strongest zipper on the market. This bag features 6 internal storage pockets that measure 7”H x 7”W x 4”D and have clear vinyl flaps to secure contents. There is a large pleated zippered pocket in the interior of the top flap. Two external pockets, on one side, measure 8”H x 10”L x 3.5”D and feature 3 slot pockets and 30 elastic loops to keep small items organized. On the other side is a pocket that measures 8”H x 21”L x 3.5”D that is perfect for C-collars or other oversize items that need to be close at hand. The Mega Medic’s Roller Bag is mounted on an external wheeled frame that boasts 2” ground clearance, a 13” wheel base and a two stage handle that extends to 44”. All of this adds up to a bag that stays clean, dry and stable even when the scene is not. It is available in royal blue or orange and has a weight 140 oz. with overall dimensions of 24”L x 17”W x 11”H.
THE ULTIMATE TRAUMA BAG  
#RB A 800X - BK

The Ultimate Trauma Bag is for the professional who is ready to have all their supplies on hand in one bag. The main compartment of the Ultimate Trauma Bag is fully padded with closed cell foam for protection. Other features of the bag include: 5 exterior zippered pockets in various sizes, numerous elastic loops, clear vinyl pockets and mesh pockets for intubation or other supplies. The bag is also customizable with semi-ridge adjustable and removable inserts as well as internal Velcro® for attaching additional pockets. There is ample room inside for a “C” or “D” Jumbo Oxygen cylinder. An outside zippered panel allows for the oxygen to be easily accessed without opening the top main compartment. Three molded rubber handles allow for easy transport and carrying options. The Ultimate Trauma Bag can also be deployed as a backpack, with the use of the hidden straps, which are stored on the bottom of the bag. Hidden behind the backpack straps is a Velcro® accessible panel for a ballistic insert (not included). A shoulder strap is provided for hands-free transport. The bag is constructed of Cordura® nylon with #10YKK heavy duty self repairing nylon zippers, 3M™ heat applied reflective trim on two sides for additional safety, removable Velcro® for department nametags, and polyurethane raised runners attached to bottom for extra protection. The Ultimate Trauma Bag is built tougher than any imported bag on the market. It is available in black and weighs 128 oz. with overall dimensions of 21"L x 15"H x 12 ½"W.
MEGA MEDIC'S VINYL BAG
#RB A600X-RB-Vinyl
It's the highest quality impervious trauma/oxygen bag on the market. The outer shell is constructed of 22 oz vinyl. The interior liner is constructed of nylon pack cloth and high density foam for equipment protection and stability. The dividers are fully adjustable and secured in place with hook and loop. Both the dividers and the liner may be removed for cleaning by hand washing with mild soap and water and then allowing it to air dry. This bag will hold a “D” or Jumbo “D” oxygen cylinder with access to the regulator through the end pocket. The Tuff Bottom provides an almost indestructible base. Four outside pockets surround the main compartment. There are two pockets on the front that feature multiple elastic loops and slot pockets. Inside the lid is a large zippered pocket. #10YKK heavy duty zippers are used throughout the bag and are reversed to eliminate wear on the coil therefore prolonging the life of the strongest zipper on the market. It comes with an adjustable nylon shoulder strap. It is available in royal blue, with a weight of 140 oz. and overall dimensions of 27”L x 15”W x 12”H.
Trauma/Medic Bags

MEGA TRAUMA PACK
#375OR
#375NV
#375BK
This is an extremely large backpack/trauma bag made of Cordura® nylon. The main compartment measures 20” H x 15” W x 7” D, is padded with closed cell foam, and has a #10YKK heavy duty self repairing nylon zipper. This bag has 16 pockets and compartments. On the outside back is a 15” x 8” gusset pocket and a 15” x 10” x 3” zippered pocket. The two side pockets and top pocket each measure 15” x 5” x 2 1/2”. The inside consists of 4 removable flat pockets, 4 pouch pockets and 2 flap pockets. The main compartment has sewn in Velcro® straps for securing contents. This pack has a web carrying handle and a contoured shoulder strap with chest and waist straps. A false back allows for storage of shoulder straps when not needed. 3M™ heat applied silver reflective trim to minimize contamination. This is available in orange, navy, or black (black does not include Star of Life or Reflective material.) The bag weighs 48 oz.

MULTI-PRO TRAUMA PACK
#860OR (Orange Cordura®)
#860BK (Black Vinyl)
This pack features removable fold out, color coded pockets with clear vinyl windows. An ABS molded plastic liner provides protection to contents and is designed to accommodate a “C”, “D”, or Jumbo “D” O2 cylinder. The removable shoulder harness allows you to use it as a back pack for hands free carrying. This item may be used as a specialty case for airway management, basic trauma, etc. The shoulder strap is included. Made of Cordura® nylon with 3M™ heat applied silver reflective trim to minimize contamination. This is available in orange Cordura® or black vinyl. The bag has an overall area of 1850 cubic inches with a weight of 67 oz. and overall dimensions of 22” x 12” x 7”.

Contents not included
URBAN RESCUE BACKPACK

A true rescue backpack with a wide variety of uses from search and rescue, air service, or a squad. The main compartment is fully padded with closed cell foam for protection. All internal pockets are held in place by Velcro® and are removable. The backpack has a web carrying handle and padded contoured shoulder straps, chest strap and a waist strap. A false back allows for storage of shoulder straps when they are not needed. The front has a zippered storage compartment that measures 10” W x 15”H x 3”D. On each side is a removable 5”W x 11”H x 2”D pocket. 3M™ heat applied silver reflective trim is used to minimize contamination. The orange and navy packs have a silk-screened white Star of Life. The black packs do not have a Star of Life or reflective trim. Made of Cordura® nylon with a #10YKK heavy duty, self-repairing nylon zipper, the main compartment flap has an 18” slot pocket and six clear vinyl attached compartments. The pack will hold a “C” or “D” size oxygen sleeve or may be rearranged without an oxygen tank. This is available in orange, black or navy. The weight is 44 oz. and the overall dimensions of 11” W x 20” H x 6”D.

#365OR-E

#365BK-A
#365NV-A
9 small pockets, 1 long pocket no oxygen cylinder sleeve

#365OR-B D
#365BK-B D
#365NV-B D
5 small pockets, 1 long pocket, 1 “D” cylinder sleeve

The #471 is an accessory pocket measuring 5½”L x 5½”H with a clear top, Velcro® closure on the flap and a 2” x 5½” Velcro® loop on the bottom. Cordura® nylon construction and is available in green, red, yellow or orange. It weighs 3 oz. and has an overall area of 30 cubic inches.

#472RB
The #472 is an accessory pocket measuring 13”L x 6”H. It has a clear top, Velcro® closure on the flap with a 2” x 13” Velcro® loop on the bottom. It comes in royal blue, weighs 4 oz. and has an area of 80 cu. inches.

#470
Accessory Pocket kit including: 1-#471-GR, 1-#471-YL, 1-#471-RD, 1-#472-RB
**FIRST RESPONDER BAG**

#RB828OR  
#RB828RB  
The First Responder bag is large enough to accommodate multiple patient care. It features a large center compartment with a U shaped zipper for easy access. The bag has webbed carrying handles and 3M™ heat applied silver reflective trim to minimize contamination. It is made using Cordura® nylon and #8YKK double zippers on all openings. There is a white silk-screened Star of Life & ID bar on the top of the bag. The bag is available in orange and royal blue. It weighs 28 oz. and has overall dimensions of 18”W x 11”D x 10”H.

---

**PERSONAL TRAUMA BAG**

#RB-200OR  
#RB-200RB  
This bag was designed with the first responder in mind. This compact bag is constructed using Cordura® Nylon and includes two slot pockets with dividers and elastic loops. There is a white silk-screened Star of Life & ID bar. 3M™ heat applied silver reflective trim is used to minimize contamination. The bag is available in orange and royal blue. It weighs 12 oz. and has overall dimensions of 15”W x 8”H x 7”D.
Trauma/Medic Bags

**INTUBATION KIT**

**#259OR**

A roll-up intubation kit that consists of four large pockets for packaged and miscellaneous items. There are 14 slot pockets for handles and blades and 17 elastic loops for airways and other related items. A full length flap helps secure equipment. It is available in orange, weighs 12 oz. and measures 14” x 29”.

---

**RES-Q-PAK**

**#ESP 13**

A Spinal Immobilization Equipment Case will hold the essentials, such as cervical collars, head blocks, backboard straps or Ked® type extrication device. Made of nylon pack cloth and available in green, it weighs 22 oz. and measures 36”L X 8.5W X 11”H.

---

**OPIOID OD KIT**

**#RB S800 NO**  **#RB S800 BK**  **#RB S800 NO-C**  **#RB S800 BK-C**

This is designed to hold all of the essential contents needed to treat an opioid overdose. This kit features two sets of elastic loops for syringes and a clear view zippered pocket and #10YKK zippers with lockable zipper slides are used. Choose either webbing belt loops or add a heavy duty metal belt clip. Made of Cordura® nylon, it is available in neon orange or black. It weighs 8 oz. and has overall dimensions of 7.5”L x 2”D x 3”H.
Trauma/Medic Bags

**IV MODULE**

#RB S600X-RB
#RB S600X-RD

This is a compact kit for your IV setup. Slot pockets and elastic loops secure your supplies. These keep everything needed convenient and organized. It is constructed of Cordura® nylon and a #8YKK zipper and slides. Color availability in either red or royal blue. It weighs 18 oz. with overall dimensions of 12 1/2"L x 8"W x 3"H.

**INTUBATION MODULE**

#RB S400X-RB
#RB S400X-RD

All of your intubation needs packaged in one convenient kit. Elastic loops and slot pockets hold your airways, ET tubes, blades and related items. It is constructed of Cordura® nylon and a #8YKK zipper and slides. It is available in royal blue or red. This weighs 20 oz. and has overall dimensions of 14"L x 9 1/2"W x 3"H.

**PACIFIC COAST DRUG BAG**

#RB S450YL

A highly padded and protected bag for the storage of your department’s meds. This bag has more than 60, 3/4" wide elastic loops in various sizes to hold vials and syringes. A padded center divider protects vials from making contact. A dry marker board is on the backside for quick notes. There is one inside zippered pocket and two outside slot pockets. Constructed of Cordura® nylon and #10YKK heavy zippers with lockable zipper slides. This bag fits inside most Pacific Coast bags. It is available in yellow, weighs 24 oz. and has overall dimensions of 14"L x 9 1/2"W x 3"H.
AMPOULE MODULE
#RB S700X-RB
The outer shell is constructed of nylon pack cloth with a clear pocket on the outside for an inventory sheet. The inside consists of high density pluck foam cut into 1/2" squares that are 1" deep. The squares can be removed so vials fit snugly with clear vinyl overlay to keep them securely in place. There is a #10YKK nylon zipper with lockable zipper slides. It is available in royal blue with a weight of 16 oz. and overall dimensions of 13"L x 5 1/4"W x 3"H.

BURN KIT
#177YL
Use this bag to make up your own burn kit. It has web handles and D-rings so it can be hung. It is available in yellow, weighs 9 oz., has an area of 1000 cubic inches and measures 13"H x 11"W x 7"D. Color: Yellow

REMOVABLE ACCESSORY BAGS
#RB S500-A (5" x 6" x 4.5")
#RB S500-B (10.5" x 6" x 4.5")
#RB S500-P (13" x 4" x 3.5")
Removable pocket kit featuring 3 Velcro® backed removable pockets with clear vinyl windows. Designed to fit into most R&B bags. It is available in red, royal blue or black and weighs 18 oz. Available to purchase as a kit of all 3. #RB S505

SMALL AND LARGE FANNY PACK
501OR  502OR
501BK  502BK
501RD  502RD
501TN  502TN
A fanny pack designed to hold personal protection items. Made of Cordura® nylon with a 1 1/2" webbing belt. The small 501 measures 7" x 4" x 3" and weighs 8 oz. The large 502 measures 9 1/2" x 5" x 3" and weighs 10 oz. All bags are available in red, orange, tan, or black.
Trauma/Medic Bags

TECHCASE 3000
Designed by a former firefighter and paramedic, the rugged and durable PELICAN™ case with gray dividers, features interchangeable inserts which can hold various types of vials and other medical response items. The case divider and inserts can conform to multiple custom configurations. It is able to be converted from BLS to ALS in seconds. Inserts are washable and can be sanitized and reused if contaminated. Available in small or large model.

SMALL TECH CASE
#1500 (Interior Dividers Not Included)
Interior 16.75”L x 11.18”W x 6.12”D.
Exterior 18.50”L x 14.06”W x 6.93”D.

LARGE TECH CASE
#1550 (Interior Dividers Not Included)
Interior 18.63”L x 14.18”W x 7.72”D.
Exterior 20.66”L x 17.20”D x 8.40”D.
Trauma/Medic Bags

DISASTER SUPPLY PACK

# 215GRAY
# 215GR
# 215RB
# 215RD
# 215YL

When disaster strikes you are ready to respond with a pack designed for treating patients in an open scene environment or a field clinic situation. The pack features 16 zippered pockets constructed of heavy clear vinyl and nylon. The stored supplies are easily visible and accessible. A variety of pocket sizes allows for supplies to be stored in their original containers or loose. Three, strong plastic hooks and straps allow for the pack to be hung from a vehicle, wall or structure. The pack comes stored in the Cordura® carrying bag that has double zippers for easy access and security. The carrying bag also has zippered clear label pocket for identification.

Be prepared for the unknown with R&B’s DISASTER SUPPLY PACK. The pack is available in five colors: gray, orange, royal blue, red, yellow. It weighs 98 oz. with overall dimensions of 56”L x 25”W x 4½”D.

INITIAL DISASTER STOCKING KIT

#216

2 – Adult BP Cuffs
6 – Burn Sheets
2 – Stethoscopes
1 – Band Aids (100)
3 – CPR Pocket Mask
6 – 1” Tape
4 – Rescue Shears
12 – Foil Rescue Blankets
4 – Bandage Shears

Oxygen Bags

TRAUMA OXYGEN BAG (T.O. BAG)
#820OR
This bag is designed to carry your oxygen supplies, a “D” cylinder and trauma related dressings and equipment. There are three main compartments. The center compartment is designed to hold an oxygen cylinder and regulator. There are 4 slot pockets on each side and elastic airway loops above the pockets. The oxygen cylinder lays in an A.B.S. molded plastic tray, which provides support for the bottom and protection on each end. The sides of this compartment have plastic inserts for added protection and stability. At the head of the cylinder is a smaller pocket for shears, forceps, etc. At the end of the bag, on the outside, is an additional pocket. On each side of the bag is a full length pocket for total access. Each outside pocket has pockets made of nylon mesh and 4 nylon pockets with clear flaps. Above this is a full length elastic strip. Each have a full length pocket for splints and/or large trauma dressing. On the top of the bag is a small pocket. An outside carrying handle allows the bag to be picked up without zipping it shut. The removable shoulder strap makes it easy to carry on your shoulder or can be grabbed by the two handles. The bottom of the bag is vinyl coated nylon for added protection and wear. There is 3M™heat applied silver reflective trim to minimize contamination and a white, silk-screened Star of Life. This is available in orange. It weighs 80 oz. and the overall dimensions are 10”H x 15”W x 24”L.

OXYGEN ROLL BAG
#838GR
This bag is fully padded to carry your oxygen cylinder, regulator and accessories. There is a removable inner liner for easy cleaning. This bag has 6 pockets with tie down straps for your oxygen cylinder, elastic airway loops and a padded flap to cover the regulator. Included with this bag is a nylon coated vinyl bottom for extra wear and a shoulder strap. Made of Cordura® nylon, this bag will hold a “C”, “D”, or a Jumbo “D” cylinder. There is 3M™ heat applied silver reflective trim to minimize contamination. It is available in green. It weighs 32 oz. and the overall dimensions are 20 1/2"W x 9 1/2"H x 9 1/2"D.

OXYGEN ROLL BAG WITH SIDE POCKET
#838GR - PKT
The #838-PKT has the same features as a #838, but has an additional side pocket. This pocket measures 21” X 7” X 2”, which is suitable for storage of items such as suction, oxygen supplies, tubing, etc. It weighs 33.6 oz. and the overall dimensions are 21”W x 7”H x 11 1/2”D.
OXYGEN CYLINDER SLEEVE
#474OR “D”
#474GR “D”
#478OR “J” (Jumbo “D”)
This attaches to the rail of a cot and holds a cylinder. It attaches with a 2” hook and loop that is sewn to 2” webbing. There is a hook and loop tab sewn to the top where you can coil your oxygen tubing and store it when not in use. It is available in orange or green. It weighs 8 oz. and the overall dimensions of the different sleeves are:
#474: 15 1/2”L x 4 1/2” Diameter
#478: 16 3/4”L x 5” Diameter

OXYGEN CYLINDER SLEEVE “D” CYLINDER
#475OR
#475GR
This attaches to rail of a cot and holds a “D” cylinder. It attaches with a 2” hook and loop sewn to 2” webbing. There is a hook and loop tab sewn to the top where you can coil your oxygen or mask tubing and store it when not in use. A small side pocket holds extra masks. It is available in either orange or green. It weighs 8 oz. and the overall dimensions are 15 3/4”L x 4 1/2” Diameter.

PORTABLE OXYGEN CYLINDER BAG WITH PADDED HEAD
#250OR-P “D” Cyl.
#250GR-P “D” Cyl.
#253OR-P “C” Cyl.
#251OR-P “E” Cyl.
This features one-half inch of high density, closed cell foam that helps protect the oxygen regulator. It is large enough for your cylinder and attached regulator. There is a pocket on the side for a mask, nasal cannula, etc., elastic loops inside pocket for seven oral airways, and a shoulder carrying strap that includes hook and loop straps to attach to a cot rail. Made of heavy Cordura® nylon, it has 3M™ heat applied silver reflective trim to minimize contamination. There are models available for “C”, “D” and “E” cylinders. It is available in orange or green and weighs 16 oz. The overall dimension are:
#250: 23 1/4”L x 4 1/4” diameter (body)
7 1/2” diameter (head)
#253: 19”L x 4 1/4” diameter (body)
7 1/2” diameter (head)
#251: 35”L x 4 3/4” diameter (body)
7 1/2” diameter (head)

Contents not included.
**TRAUMA BAG INITIAL STOCK**

#RB-17

Prepackaged poly bag with all the supplies needed to initially stock our trauma bags. This weighs 85 oz. and includes:

- 1- B/P Cuff
- 1- Oral Airway set
- 1- Stethoscope dual head
- 5- Pair of gloves
- 1- Multi-Trauma Dressing
- 2- Cold Packs
- 3- 5" x 9" Combi Pads
- 15- 4" x 4" Gauze Pads
- 10- 2" x 2" Gauze Pads
- 2- 1" tape (adhesive)
- 1- CPR Mask
- 4- Triangular Bandage
- 1- Foil Rescue Blanket
- 3- 4" Conforming Gauze
- 3- 2" Conforming Gauze
- 1- Burn Sheet
- 10- Alcohol Preps
- 10- Antiseptic Towelettes
- 5- Pair of gloves
- 1- Multi-Trauma Dressing
- 2- Cold Packs
- 3- 5" x 9" Combi Pads
- 15- 4" x 4" Gauze Pads
- 10- 2" x 2" Gauze Pads
- 2- 1" tape (adhesive)
- 1- CPR Mask
- 4- Triangular Bandage
- 1- Foil Rescue Blanket
- 3- 4" Conforming Gauze
- 3- 2" Conforming Gauze
- 1- Burn Sheet
- 10- 1" Band-aids or Assorted Box
- 10- Alcohol Preps
- 10- Antiseptic Towelettes
- 10- Triple Antibiotic Ointment
- 10- 1" Band-aids or Assorted Box
- 10- 15 Gram Glucose

---

**TRAUMA BAG RESTOCKING KIT**

#RB-61

This is designed to restock a trauma bag after several responses have been made. This kit includes the following:

- 1- 1" adhesive tape
- 2- Triangular bandage
- 2- Cold Packs
- 1- Oral Airway set
- 1- Multi-trauma dressing
- 1- 15 Gram Glucose
- 1- Penlight w/pupil gauge
- 5- Pair of gloves
- 1- Bite Stick
- 2- 1" tape (adhesive)
- 1- Bandage Shears
- 1- CPR Mask
- 1- Burn Sheet
- 10 - Triple Antibiotic Ointment
- 5 - 5" X 9" Combi pads
- 15 - 4" X 4" Gauze pads
- 15 - 2" X 2" Gauze pads
- 5 - 4" comforting gauze
- 3 - 2" comforting gauze
- 10 - Alcohol Preps
- 10 - Antiseptic Towelettes
- 10 - 1" Band-aids or Assorted Box
- 10 - Foil Rescue blanket
- 10 - Lock blade knife

---

**OXYGEN BAG INITIAL STOCK**

#RB-18

Prepackaged poly bag with all the supplies needed to initially stock our oxygen bags.

- 1- Oxygen Regulator (Brass) 0-15L constant flow
- 1- Aluminum "D" Oxygen Tank with Toggle Handle
- 1- Bag-Valve-Mask (Adult)
- 2- Adult Non-Re-breather Mask
- 2- Pediatric Non-Re-breather Mask
- 2- Adult Nasal Cannula
Trauma Supplies

**OXYGEN REGULATOR**
#RB-14
Oxygen Regulator (brass) with selectable 0-15L flow. Single barb fitting and pressure gauge.

**BP CUFF**
#RB-12
An adult aneroid sphygmomanometer, white-faced 300 mm Hg no pin stop manometer with black numerals. This weighs 12 oz.

**STETHOSCOPE**
#RB-13
Dual head stethoscope with interchangeable chest pieces and earpieces. This weighs 10 oz.

**BAG - VALVE - MASK**
#RB-11
An adult bag-valve-mask with reservoir bag and oxygen tubing for high flow oxygen concentrations. This weighs 16 oz.

**SPRING LOADED WINDOW PUNCH**
#SP-5-RD
Spring loaded center punch with key ring for easy attachment to gear.

**MEDIC SHEARS**
#RB-01
7½” Medic Shears

**KNIFE**
#RB-06
Knife with stainless handle and smooth/serrated blade.

**CPR MASK**
#RB-00
CPR Mask with oxygen port in hard plastic case.
Rescue Accessories

**SHORT STACK SHORING CARRIER**
#RB-64
This carrier is designed to carry your predetermined amount of shoring. Constructed of heavy duty nylon webbing with a “cam over center” buckle. It is available in hot yellow and weighs 12 oz. The strap length is 54”.

---

**LONG BUNDLE SHORING CARRIER**
#RB-65
The same concept as the RB-64, with a third strap and two carrying handles to help balance your longer load. It is available in hot yellow and weighs 16 oz. The strap length is 48”.

---

**DUTY BELT**
#676BK
This duty belt is 2” wide and designed to carry your radio, pager, mag light and small cased items. There is heavy webbing with a side release Delrin® nylon buckle and several belt keepers to prevent everything from sliding together. This is one size fits all and will extend up to 65 inches. A smaller waist may cut off excess webbing. It is available in black and weighs 6 oz.

---

**GLOVE CASE SMALL**
#243BK
This will hold one or two pairs of gloves and is compact and conforms to the contour of your belt. The case is constructed using heavy Cordura® nylon, and is available in black and weighs 1 oz. The case measures 4” x 3”.

---

**GLOVE CASE LARGE**
#243BK-L
This large glove case will hold approximately 6 pairs of gloves. It is available in black and weighs 2 oz. The case measures 1” x 4¼” x 3½”.
Active Shooter Response Kits

**IFAK/ACTIVE SHOOTER RESPONSE SUPPORT KIT/ MULTI USER (8)**

**ASK-400RD**
This kit is constructed of denier polyester and contains 8 individual pouches for multiple patients. Individual pouches are held in place with Velcro® for quick release. Additional slot pockets on each side provide additional storage. A clear vinyl window on the outside is provided for inventory tracking and reports. The kit is sold empty with 3 optional bleeding control content kits available (See page 36 for details). It is available in red and its empty weight is 30 oz. The measurements are:
Closed - 18"T x 12"W x 7"D
Open - 36"T x 12"W x 3"D

---

**ACTIVE SHOOTER RESPONSE/SAR BACK PACK**

**ASK-401BK  ASK-401RD**
Our ASR/SAR backpack is a slim-tapered pack which contours for comfort and eliminates the bulky backpack when concealment is important or tight locations are encountered. This pack consists of 3 zippered pockets, capable of holding 8 Patient Treatment Kits, and two removable outer pockets for accessories. The main compartment is 21"H x 10"W x 5"D. It has full length Velcro® compatible foam for protection and comfort. There is a convertible Velcro® divider for extra storage. All internal pockets can be held in place by Velcro® and are quickly deployed. The middle compartment is approximately 14"H x 7"W x 3 1/2"D, with MOLLE webbing for attaching additional pockets. The lower fanny pack compartment is 8" H x 10"W x 5"D. The back pack has a web carrying handle, padded contoured shoulder straps, chest strap and waist strap as well as slot provisions for a hydration pack hose. This is made using DuPont® Cordura® and #8YKK self repairing zippers. It is available in black or red and weighs 36 oz. The overall dimensions are 21"H x 12"W x 12"D.
Active Shooter Response Kits

**IFAK/ACTIVE SHOOTER RESPONSE POUCH**

Our IFAK/Active Shooter Response Pouch opens quickly. There are many options for the pouches based on how they will be used. Create your own custom combination that is most suitable for you or your team’s usage. There is a choice of: two mesh pockets, elastic loops or empty pouches available for the inside. The mesh pockets visually allow the rescuer to see the contents, and secure the smaller items for patient treatment. The elastic loops are to secure a tourniquet and other loose contents. The empty pouch is to hold a vacuum sealed Bleeding Control Kit. The back of the pouch is designed depending on how it will attach to other bags or Active Shooter Response Kits. Made of denier Polyester, with a #4.5YKK self-repairing zipper, it comes in tan, black, or red. It weighs 3 oz. and the overall measurements are 7 1/4"H x 4 ½"W x 3"D.

Active Shooter Response Kits

BLEEDING CONTROL KIT
Bleeding Control Kits provide the essential tools needed to stop bleeding quickly. Whether they are needed for a car accident or an active shooter situation, these kits can provide the medic, or even the general public, to act as a responder. There are three levels of kits: Basic, Intermediate and Advanced. The Bleeding Control Kit comes in a vacuum sealed pouch with all of the contents sealed securely inside for a longer life-span. Sealed kits fit directly into the Empty IFAK/Active Shooter Response Pouch (found on page 33) for easy transport. Overall measurements are 7”H x 4”W x 3”D. Weight 15 oz.

CONTENTS INCLUDE:

THE PANNIER MOUNTING SYSTEM
All of our panniers have been designed to simplify and speed installation and removal. We use 2 inverted J hooks, which hang on the side rails of the rack, and an elastic type bungee cord with an “S” hook to secure it to the bottom of the rack. For additional support when carrying heavy loads, there is a detachable strap (#1312 found on page 39) that can be snapped onto the pannier and attached to the bicycle frame. The strap is equipped with a side release buckle for quick mounting and removal. If a #1310 Trauma/O2 Pack (found on page 38) is used, it must be removed first. We recommend a heavy-duty rack, which mounts in the seat area and attaches to the frame in the axle area. Our line of bicycle panniers have been designed by James Bowell of Troy Fire Department in Ohio. His expertise as an instructor and experience in the field have helped us provide you with the best.

AED PANNIER
#1326RB
#1326BK
This AED pannier has a pocket measuring 14”H x 34” in circumference. There are 4 clear vinyl pockets on the flap for supplies. This is a right side pannier. It is made using Cordura® nylon, and the back side of the bags are nylon reinforced vinyl for easy cleaning and have a self-repairing #10YKK nylon zipper with a storm flap. These are available in royal blue or black. The pannier weighs 80 oz. with overall measurements of 15”H x 12”W x 7”W for an availability of 1,260 cubic inches of space.

O2 / BVM PANNIER
#1323RB
#1323BK
Designed to hold a “C” cylinder and a BVM on the back side with four clear vinyl pockets, this is made using Cordura® nylon. The back side of the bags are nylon reinforced vinyl for easy cleaning and have a self-repairing #10YKK nylon zipper with a storm flap. White 3M™ Scotchlite™ Reflective Material trim and a Star of Life are found on the bag. These are available in royal blue or black. The pannier weighs 80 oz. with overall measurements of 15”H x 12”W x 7”W for an availability of 1,260 cubic inches of space.
**BIKE PANNIERS**

### 6 POCKET PANNIER

**LEFT SIDE**  **RIGHT SIDE**  
#1363BK    #1366BK  
#1363RB    #1366RB  

This pannier consists of 6 pockets of different sizes with 3 in the flap and 3 on the back side. The pockets are clear vinyl to view the contents. The pockets allow you to carry loose items, pre-packaged supplies or specialty kits. These can be used as a pair or matched up with either the #1323 O2/BVM pannier (page 37) or the #1326 AED pannier (page 37). Made of Cordura® nylon, the back side of the bag is nylon reinforced vinyl for easy cleaning and has a self-repairing #10YKK nylon zipper with a storm flap. White 3M™ Scotchlite™ Reflective Material trim and a Star of Life are found on the bag. These are available in royal blue or black. The pannier weighs 80 oz. with overall measurements of 15"H x 12"W x 7"W.

### BIKERS TRAUMA / O2 PACK

#1310BK  
#1310RB  

A top mount, dual purpose bag that may be used as a trauma bag or an oxygen setup. This features a padded end pocket along with two side pockets and a pocket for two water bottles. The top bungee cords are great for storing larger loose items. An HDSR polypropylene divider provides protection and adds body to the main compartment. When used for oxygen, the polypropylene shell stabilizes the oxygen “C” cylinder. The valve and regulator extends into the highly padded end pocket. The Bikers Trauma/O2 pack attaches to the rack with Velcro® straps and side release buckles. Made of Cordura® nylon, the bottom of the bag is nylon reinforced vinyl for easy cleaning, and has self-repairing #10YKK nylon zippers with a storm flap. 3M™ heat applied silver reflective trim is used to minimize contamination and comes with one set of clips. This is available in royal blue or black and weighs 40 oz. The dimensions of the main compartment are 10 1/2”L x 7 1/2”W x 8”H, and the dimensions of the padded end pocket are 7 1/2”W x 6”H x 3”L.
BIKE PANNIERS

#1312
The detachable strap can be snapped onto the pannier and attached to the bicycle frame for additional support when carrying heavy loads.

#1311
This set of two is used to secure the #1310 Trauma/O2 Pack to the rack. With an extra set of clips you can leave them on the bike rack when interchanging bags. This set weighs 3 oz.

BIKERS TRUNK BAG
#1315BK
#1315RB
An extra large, top mount dual purpose bag may be used as a trauma bag or an oxygen setup. This bag features an additional top pocket for ample storage space. Internal dividers in the main compartment provide protection. When used for oxygen, the polypropylene shell stabilizes the oxygen “C” cylinder. The Bikers Trunk Bag attaches to the rack with Velcro® straps and has side release buckles. Made of Cordura® nylon, the bottom of the bag is nylon reinforced vinyl for easy cleaning, and has self-repairing #10 YKK nylon zippers. 3M™ heat applied silver reflective trim is used to minimize contamination. These are available in royal blue or black and weigh 40 oz. The overall dimensions of the main compartment are 18”L x 5 1/2”W x 18”H and the dimension of the top pocket is 12”W x 2”H x 12”L.

EXTRA CLIPS FOR BIKERS TRAUMA / O2 PACK
#1311
This set of two is used to secure the #1310 Trauma/O2 Pack to the rack. With an extra set of clips you can leave them on the bike rack when interchanging bags. This set weighs 3 oz.
Tactical Medic Packs

This is a true tactical medic rescue backpack with a wide variety of uses and the ability to transform to multiple configurations for maximum flexibility. The main compartment is fully padded with closed cell foam for protection. All internal pockets are held in place by Velcro® and are removable. The front and sides of the pack are equipped with the PALS (Pouch Attachment Ladder System), a grid of webbing sewn onto the load bearing equipment that corresponds with straps on the attachment. The straps are interwoven between the webbing on each side of the two pieces and are snapped into place, making for a very secure fit which can be detached. The backpack has a web carrying handle on top and side. There are padded contoured shoulder straps, chest strap and a waist strap. A false back allows for storage of the shoulder straps when not needed. Made of Cordura® nylon with #10YKK heavy duty, Aqua guard water repellent zippers with PV coating and a pull tab. All seams and stress points are sewn with #69 Dacron thread. This pack will hold a "C" or "D" size oxygen tank or may be rearranged without an oxygen tank. All pockets have a Velcro® FlexBadge label system for quick and easy labeling of accessory pouches and the main pack. This is available in black or coyote tan. The pack without pockets weighs 60 oz. and the pack with pockets weighs 105 oz. Each pack has overall dimensions of 11" W x 20" H x 6" D. The side Molle pockets have dimensions of 6.5"H x 4"W x 2.5"D. The top front Molle pocket has a dimension of 10"W x 5"H x 3"D, and the lower front Molle pockets have dimensions of 5"W x 6"H x 3"D.
INSIDE SMALL POCKET WITH CLEAR FRONT
#372TN
#372BK
Measures 5"H x 6"W x 3"D, is available in tan or black and weighs 4 oz.

INSIDE LARGE POCKET WITH CLEAR FRONT
#373TN
#373BK
Measures 5"H x 6"W x 3"D, is available in tan or black and weighs 4 oz.

OUTSIDE FRONT TOP POCKET WITH ZIPPER
#374TN
#374BK
Measures 5"H x 6"W x 3"D, is available in tan or black and weighs 2.5 oz.

5X6 OUTSIDE FRONT POCKET WITH ZIPPER
#377TN
#377BK
Measures 6"H x 5"W x 3"D, is available in tan or black and weighs 5 oz.

4.5X5.5 OUTSIDE FRONT POCKET WITH FLAP
#378TN
#378BK
Measures 5.5"H x 4.5"W x 3"D, is available in tan or black and weighs 3 oz.

3.5X6 SMALL OUTSIDE SIDE POCKET WITH ZIPPER
#379TN
#379BK
Measures 6"H x 3.5"W x 2.5"D, is available in tan or black and weighs 3 oz.

4X6.5 LARGE OUTSIDE SIDE POCKET WITH FLAP
#380TN
#380BK
Measures 6.5"H x 4"W x 2.5"D, is available in tan or black and weighs 3 oz.
HOW TO CHOOSE THE RIGHT HOSE PACK OR HOSE STRAP

When choosing which hose pack or strap is right for you consider these factors:

1. How much weight do you want to carry in a single hose pack?
2. What type of hose does your department handle? (Single jacket, double jacket, light weight, etc.)
3. What are the dimensions of the space where the hose bundle will be stored?

To help answer these questions there are a few things you can do to help you choose the right hose pack or strap system for you.

1. Measure the compartment or space where you will be storing the hose.
2. Using the measurements you have just acquired, create a hose lay that will fit the space.
3. Once you have your hose lay, measure the dimensions including length, width, height and circumference.
4. When looking for a hose pack, take note of the dimensions and make sure those dimensions align with the measurements you took from your hose lay. Because hose lays and hose sizes vary, you may be able to get several different lengths of hose in the same hose pack or strap.

#M/S-CHLS (Page 43)
#M/S HP (Page 47)
#HOV-200 (Page 45)
THE CLEVELAND LOAD
Cleveland hose lay is designed to be connected to and laid on top of a 100 foot length of pre-attached hose in your cross lay or hose bed. When making up the Cleveland lay for a cross lay or hose bed, it should be the length of your pre-connect. Pull the hose bundle out and place over your shoulder, and as you walk, you will pull the remainder of the 100 feet of hose from the hose bed until it is fully deployed.

THE CLEVELAND STRAPS
#M/S-CHLS
This is a set of 3 straps to be used for a 100 foot hose. The 3 straps are made with 2” Delrin® side release buckles that are easily released with your gloves on. There is a looped end for cinching. This set up allows one person to easily deploy up to 200 feet of hose. The straps are available in royal blue and weigh 16 oz.

THE CLEVELAND GRIP
#M/S-CHLG
This is made of 2" nylon webbing with 2" Nexus quick side release buckles that are easily released with your gloves on. There is a looped end for cinching and a removable shoulder strap for easy carrying. The grip holds 100 feet of 1 ¾” hose with the nozzle attached. The Cleveland Grip is designed for a stand pipe operation or to be connected to an existing line with a gated wye. It is available in royal blue and weighs 24 oz. The overall dimension is 37”L.
R&B hose straps are built tough with quick release Velcro® closures, molded rubber grips, 3M™ reflective trim and a Nylon reinforced spine. Using longer lays allows the hose bundle to be carried over your shoulder or SCBA, while shorter lays can be carried at arms length. R&B hose straps make deploying hose simple in difficult situations. All hose lengths mentioned are suggested capacity only. Size of hose and length of the hose lay will determine each strap’s final capacity.

**THE 100 FOOT HOSE STRAP**

*HS-100*

53” in length, each strap has an adjustable circumference of 14” - 24”. This weighs 20 oz.

---

**THE 100 OR 50 FOOT HOSE STRAP**

*HS-150*

26” in length, each strap has an adjustable circumference of 14” - 28”. This weighs 16 oz.

---

**THE 200 FOOT HOSE STRAP**

*HS-200*

36” in length, each strap has an adjustable circumference of 22” - 34”. This weighs 25.12 oz.

---

**LEATHER HOSE JACKET**

*BL-9200*

A quick temporary fix for a 2 1/2” or larger hose leak. This jacket is made of heavy-duty, 10-12 oz. drum dyed English leather with 4 heavy-duty roller buckles sewn and riveted for extra strength. This weighs 16 oz. and has overall dimensions of 11 1/2” x 11 1/2”.
**Hose Packs/Straps**

**Gripper Hose System**

#GRP-57

The Gripper Hose System consists of three heavy duty nylon straps with a padded shoulder sling, all sewn together with a cross piece to create a hose harness. The gripper has a padded, high visibility shoulder sling, with three 2" wide, 42" long 3000-pound strength webbing to secure the hose. This utilizes cam buckles and torque rings and is easily opened with a gloved hand. Shown with 150 feet of 1¾" hose. The 42" long straps have the capacity to carry more hose than the average firefighter can carry. The overall length is 27" and each strap has an adjustable circumference range of 14" - 44", and weighs 24 oz.

**Hose Wrapper**

#SGS-2

This is designed to accommodate your need for that special hose pack. This features a heavy-duty nylon strap with four leverage points, and hook and loop closure with 12" of reflective material. The amount of hose the wrapper will secure depends upon the size, type, style and length of layers. This is available in green with an adjustable circumference of 14"-34", and weighing 8 oz. Sold individually.

**The Hose Vice - 200**

#HOV-200

The Hose Vice 200 incorporates many ideas given to us by our customers. This features a shoulder strap, which is adjustable and removable and long enough for a firefighter to carry the bundle across the body for better balance. Two firefighters can also carry The Hose Vice. Handles have been incorporated into the ends of the four straps, along with 2 molded rubber grips on top. The overall length is 35" and each strap has an adjustable circumference range of 20" - 38". Capacity is 150 OR 200 feet of 1¾" hose as shown. 3M™ reflective trim has been added to increase visibility. This weighs 40 oz.

View the #GOR-57 on YouTube: https://youtu.be/m8spIIuLHpl
THE DOUBLE DONUT STRAP
#DD-100
The Double Donut Strap holds two, 50-foot sections of 1¾” hose. Heavy-duty nylon webbing and high-sheer strength Velcro® make up this strong and functional product. Important features include: easy storage — hose stacks and is compact enough to fit into compartments, shoulder strap aids firefighters in carrying and deploying hose, and pre-coiled hose gives you an option to add on to an existing hose lay, or reduce a larger line. Adjustable from 42”-50”. Wt. 32 oz.

SINGLE GRIPPER STRAP
#SGS-1
The Single Gripper Strap is an individual nylon strap, which is best used in a series of four. These straps consist of stainless steel buckles, which can be operated in the dark with gloves on. The black 2” webbing is rated at 3000-pounds and treated to prevent mold or mildew. This comes in a set of 4, the length is expandable from 14” - 42”, and the weight per set is 21 oz.

LARGE DIAMETER HOSE STRAP
#LDH-01YL
The Large Diameter Hose Strap (LDHS) assists in getting large diameter hose off the hose bed for attachment to a water source safely and allowing the engine to proceed for fire operations. Constructed of 3” nylon webbing, with a tensile strength of 22,550 lbs, and strong stitching with heavy brass rivets providing long life. A quick release webbing strap allows for the strap to be secured to the engine’s top grab bar. This device allows the firefighter to pull the hose off the rig and place it over a hydrant with an additional hose secured with the hook & loop strap with plenty of spare hose for attachment. To secure the hose, a heavy hook & loop closure with a zinc plated adjuster allows for additional hose for hydrant operations. R&B placed a tab to allow for operations with heavy fire-fighting gloves. This comes in yellow, is 60” in length and weighs 32 oz.
MILWAUKEE STRAP HOSE PACKS

Constructed with firefighters in mind, this is made of durable 22 oz. reinforced vinyl. With double thickness inside, the bottom and ends keep your hose in an attack ready condition. Brass grommets allow water drainage and a Velcro® strap secures the contents on all of the packs. The Milwaukee Strap Hose Packs (#M/S HP, #M/S HP-36, and #M/S FO) have one end that opens so hose may be pulled out for easy hose lay.

MILWAUKEE STRAP HOSE & ACCESSORY BAG

#M/S AB
The molded Tuff Bottom provides an almost indestructible base, and this is easily carried by a 2" nylon webbing handle. For on scene visibility there is 2" reflective side trim. This bag can hold 75 ft. of 1½" or 1¾" hose and accessories making it ideal for standpipe connections, hose operations or as a tool bag. Loops on each end for optional shoulder strap. This is available in red, and weighs 18 oz. The overall dimensions are 17"L x 13"W x 13"H.

MILWAUKEE STRAP HOSE PACK - 50"
#M/S HP
This pack has a center handle for a one person carry and two end handles for a two person carry. Both handles are constructed of 2" nylon webbing. Three Velcro® straps secure the contents and the pack holds up to 150 ft. of 1½" or 1¾" hose. This is available in red and weighs 42 oz. The overall dimensions are 50"L x 8"W x 9"H.

MILWAUKEE STRAP HOSE PACK - 36"
#M/S HP-36
Similar to the 50" Hose Pack, this pack has two Velcro® straps securing the contents and the pack holds up to 100 ft. of 1 1/2" or 1 3/4" hose. This is available in red and weighs 36 oz. the overall dimensions are 36"L x 8"W x 9"H.

MILWAUKEE STRAP FOLD OUT HOSE PACK
#M/S FO
This 36" long version holds 100 feet of 1 1/2" or 1 3/4" hose. The pack completely unfolds for access and storage. It is constructed of the same materials as all of the other M/S hose packs. It is available in red and weighs 48 oz. Overall dimension are 36"L x 8"W x 12"H.

MILWAUKEE SHOULDER STRAP
#M/S SS
A 2" nylon web that is 48" long. There is an aluminum carabineer on each end allowing the strap to be used with any of the bags listed above. This is available in black and weighs 10 oz.
HOSE PACKS/STRAPS

Contents shown on this page are not included

XL FORESTRY HOSE PACK
#M/S103
Easily pack and carry 300 feet of 1" forestry hose. 3 removable divided internal compartments and rigid sidewall and base reinforcements keep hoses organized and ready to quickly deploy. This is made using 22 oz vinyl, is available in yellow and weighs 68 oz. The overall dimensions are 25"L x 15"H x 12"W.

MEDIUM FORESTRY HOSE PACK
#M/S 102
Pack and carry 200 feet of 1" forestry hose. 2 removable divided internal compartments and rigid sidewall and base reinforcements keep hoses organized and ready to deploy quickly. This is made using 22 oz vinyl, is available in yellow and weighs 136 oz. The overall dimensions are 22"L x 12"H x 7.5"W.

SMALL FORESTRY HOSE PACK
#M/S 101
Forestry Hose Bag holds two, 50-ft rolls of 3/4" forestry hose. This is made using 22 oz vinyl, is available in yellow and weighs 25 oz. The overall dimensions are 14"L x 14"H x 4"W.
Contents shown on this page are not included

**FORESTRY HOSE PACK**

#420RD

This bag can be used for wildfires or in high-rise buildings. It is shown here with 3 rolls of hose. This pack is constructed of Cordura® nylon and features double stitched and padded shoulder straps, an outside zipper pocket, web carrying handles, a protective flap and 3M™ Scotchlite™ reflective material. It is available in red and weighs 30 oz. There is an area of 3200 cu. in., and the overall dimensions are 11”D x 16”H x 18”W.

---

**HOSE ROLL CARRYING BAG**

#422RD

Designed to carry rolls of fire hose or extrication hose, this will hold approximately 100 ft. of 2 1/2” or 3” hose and approximately 150 ft. to 200 ft. of 1 1/2” hose. This has an adjustable shoulder strap attached to the bag to carry the load. Made of 22 oz. vinyl, it is available in red and weighs 18 oz. The overall dimensions are 22” H x 22” W x 8” D.

---

**HIGH-RISE HOSE PACK**

#423 RD

This hose pack allows one person to carry up to 150 ft. of 2” hose with a nozzle and adapters for standard pipe hook-ups. This high-rise hose pack can also be used for wildland fires. Made of Cordura® nylon or vinyl, it has web carrying handles and a shoulder strap for use as a backpack. It is available in red and weighs 28 oz. The overall dimensions are 26”H x 18”W x 7”D.
TOOL/EQUIPMENT BAGS

TUff BOTTOM TOOL BAGS
Developed for ease of use to access commonly used tools, this features an open top with no flaps or zippers. Constructed with R&B Fabrications Tuff Bottom, the outside walls are 22 oz super heavy duty vinyl, and the inside walls have rigid plastic for support and durability. These bags have superior durability and are extremely lightweight. All tool bags have an outer pocket allowing ample room for large items. Reinforced web carrying handles make this tool bag ready to move to the job site.

XL TOOL BAG
#447YL
This is available in yellow and weighs 60 oz. The overall dimensions are 29"L x 13"W x 10"H.

MEDIUM TOOL BAG
#443YL
This is available in yellow and weighs 45 oz. The overall dimensions are 21"L x 9"W x 10"H.

SMALL TOOL BAG
#446YL
This is available in yellow and weighs 27 oz. The overall dimensions are 14"L x 6"W x 10"H.

THE “TOOL BAG”
#443 RD
This is available in red and weighs 5 oz. The overall dimensions are 21"L x 9"W x 9 1/2"H.

STAND PIPE KIT BAG
#444YL
Designed to carry the tools and adapters needed to make a standpipe hookup an efficient operation, this bag will hold a pipe wrench, spanner wrench, flo-thru pressure gauge, quarter turn valve, wedges, and adapters with room to spare. It is available in yellow and weighs 45 oz. The overall dimensions are 21"L X 9"W X 9.5"H.
HIGH RISE KIT BAG
#775YL
Designed to carry the tools and adapters needed to combat fire in high rise buildings, the bag is constructed with R&B Fabrication's Tuff Bottom for superior durability. The Velcro® closure on top allows for quick access with your gloves on. This bag will hold a pipe wrench, spanner wrench, flo-thru pressure gauge, quarter turn valve, wedges, adapters, door straps, rope or hose. It is available in yellow and weighs 36 oz. The overall dimensions are 24"L x 12"W x 9"H.

HOUSTON HIGH RISE
#777YL
Designed to carry the tools and adapters needed to combat fire in high rise buildings, the bag is constructed with R&B Fabrication's Tuff Bottom for superior durability. Outside walls of the bag are constructed of heavy duty, reinforced vinyl, with the inside having rigid plastic inserts to support the bag and help protect the contents. The inserts are Velcro® and able to move, based on the contents. This bag will hold a pipe wrench, spanner wrench, flo-thru pressure gauge, quarter turn valve, wedges, adapters, door straps and rope. It is available in yellow and weighs 110.4 oz. The overall dimensions are 21"L X 9"W X 9.5"H.

HYDRANT BAG
#442RD
A large 22 oz. vinyl bag designed to hold all of the equipment you need for a hydrant operation, the Velcro® closure on top allows for quick access with your gloves on. The molded Tuff Bottom provides an almost indestructible base. This bag will hold large gated valves, wrenches, reducers, etc. A high density molded bottom helps to protect equipment. Heavy duty D rings are for an optional shoulder strap. This is available in red and weighs 6 oz. The overall dimensions are 24"L x 12"W x 9"H.
THE RIT AIR
#888RD
With a trapped rescuer in need of air, the RIT AIR bag will help provide an emergency air cylinder to the trapped rescuer. Constructed of 22 oz. vinyl coated nylon with 3M™ Scotchlite™ reflective material and a virtually indestructible Tuff Bottom, the bag can be dragged or carried to the trapped rescuer. The shoulder strap is attached with a carabineer that can also be used as a drag strap. There is ample room for rope and mask storage and a tool pocket on the top for tool storage. The RIT AIR bag has been improved with a larger top opening for quicker access to the SCBA cylinder. This is a must have for any RIT team. It is available in red and weighs 30 oz. The overall dimensions of the bag are 23”L x 9”W x 10”H, and the tool pocket is 7”W x 19”L.

RIT EQUIPMENT BAG
#887RD
The versatile RIT EQUIPMENT bag can be set up for tools only or as a carrier for supplemental air supplies for RIT operations. Two inside pockets are designed to keep the outside of the bag smooth, therefore preventing the bag from catching on obstacles. This bag also features a quick open top, rigid bottom and two straps for securing tools or an air cylinder. The bag is constructed of heavy 22 oz. vinyl with 3M™ Scotchlite™ reflective material and a virtually indestructible Tuff Bottom. The optional shoulder strap (#MS/SS, page 47) allows you to drag the RIT Bag when conditions prevent carrying the bag. The bag is available in red and weighs 130 oz. The overall dimensions are 12”H x 13”W x 29”L.

COLUMBUS RIT
#885
Keep your RIT gear ready to deploy in this rugged Columbus RIT pack. This bag features Hi Viz reflective trim and webbing, 2” Hi Viz shoulder/drag strap with carabineer clips, 2 side pockets, 2 end pockets and a large main compartment for your SCBA tank and equipment. The side and end pockets have been designed to hold an extra face piece or rescue hose. Made from 22 oz. vinyl, it is available in royal blue and weighs 144 oz. The overall dimensions are 34”L x 15”W x 11”H.
HYDRANT TOOL BAG
This bag holds your hydrant tool and related items. It attaches to the hydrant end of the hose and does not need to be removed when charging the line. The straps are made of 2” webbing and Velcro® will attach from a 2 1/2” through LDH hose. Constructed of 22 oz. vinyl to take the abuse, this will fit a 5” hose.

#440YL
This is available in yellow and weighs 10 oz. The length is 22” and the circumference is 16”.

OVERSIZED HYDRANT TOOL BAG
#441YL
This is available in yellow and weighs 14 oz. It is 26” in length with a 20” circumference.

EXTRA LARGE HYDRANT BAG
#439YL
This is the largest of our hydrant tool bags. It is available in yellow and weighs 18 oz. The overall dimensions are 27”L X 9”W X 6”H.

HYDRANT COVER
#438YL
A slip over hydrant cover was designed to identify fire hydrants that are out of service. Constructed of 22oz. yellow vinyl with 4” letters stating “OUT OF SERVICE” on both sides, the cover is held in place with a 1” web strap with adjustable side release buckles around the bottom of the cover. It is available in yellow and weighs 32 oz. The dimensions are 36”H x 30”W, with a circumference of 60”.

#440YL
#441YL

#438YL
TOOL/EQUIPMENT BAGS

**AIR BAG EQUIPMENT PACK**

#880OR

This rugged pack is designed to carry extrication supplies. The main compartment includes Velcro® tie downs for air tanks, hose and regulators. The padded exterior keeps your tools safe from impact. A reinforced vinyl back provides a layer of protection against the elements. Two large front pockets offer additional storage. The YKK zippers include large webbing pull tabs to make it easy to access with gloved hands. Reinforced webbed carrying handles give a secure hold on the load. 3M™ reflective trim surrounds the pack for maximum visibility in poorly lit conditions. Constructed using 22 oz. heavy weight vinyl, it is available in orange and weighs 45 oz. The overall dimensions are 20”L x 17”W x 7”H.

**WATER CAN CARRIER**

#CS415

This water extinguisher sling safely secures your H2O extinguisher for on-the-go versatility. The fully adjustable design fits most commercially available extinguishers. It is available in lime green and weighs 44 oz. The can compartment depth is 20 1/2”.

**THE CYLI-STRAP**

#CYL-1

Now it’s easy to carry two compressed air cylinders. Just loop each end over the valve of a cylinder and you’re ready to go. Hands are free to assist in walking or climbing. Tie a rope to the Cyli-Strap and hoist cylinders to upper floors or lower cylinders to below ground areas. The strap features nylon webbing 1 1/2” wide, 2500 lb. tensile strength, high visibility color for easy identification and loops sewn on each end to help create a slip-knot. It is available in red, weighs 13 oz and is 42 1/2” in length.
Salvage & Overhaul Kit Bag
#1410YL
This Salvage and Overhaul Kit Bag has a large main compartment that is ideal for storing sheets or rolls of construction plastic and a side pocket for a staple gun, extra staples and accessories. Constructed of 22 oz. vinyl construction, it is available in yellow and weighs 32 oz. The overall dimensions are 5"D x 10"H x 24"L.

Rubble Bag
#889RD
The Rubble Bag has plenty of room to place debris and the webbed carrying straps allow for easy handling. Constructed of 22 oz. reinforced truck vinyl and tough webbed carry straps, it is available in red and weighs 44 oz. The overall dimensions are 26"W x 22"D x 21"H.

Cribbing Bag
#890RD
Put all of your cribbing at your side. Constructed of 22 oz. reinforced truck vinyl, this bag allows for storage and easy access to cribbing for extrication or stabilization. The molded Tuff Bottom provides an almost indestructible base. A shoulder strap is included. It is available in red and weighs 18 oz. The overall dimensions are 17"W x 13"D x 14"H.
THE ORIGINAL LADDER BOOT
Protect your firefighters with this Cordura® nylon ladder boot that is padded with high density foam which provides protection from the protruding base of ladders while mounted on the fire truck. The attachment strap is made of 2" webbing and 2" Velcro® on both sides, which provides a double shear locking flap. A reflective strip with “STAY BACK” is sewn on. It is available in 3 sizes and all bags are yellow.

#651YL Medium: 8”D x 4”W x 22”H and weighs 28 oz.
#652YL Large: 8”D x 9”W x 24”H and weighs 32 oz.
#653YL X-Large: 8”D x 11”W x 26”H and weighs 40 oz.

“AMERICAN PROUD” LADDER BOOT VINYL
Fly our country’s colors with this high quality ladder boot while providing protection to your firefighters. Constructed of vinyl-coated nylon which is impervious to oil, grease, abrasions, and is tear resistant. This attaches with two 2” side release Delrin® buckles and a retainer strap. The full back panel is made of white 3M™ Scotchlite™ reflective material with a red and blue flag silk-screened in translucent ink with the imprint KEEP BACK. This is available in 2 sizes and both come in yellow.

#632YL Large: 8”D x 9”W x 24”H and weighs 48 oz.
#633YL X-Large: 8”D x 11”W x 25”H and weighs 52 oz.

NOTE: All ladder boot measurements are inside measurements.
The original Turnout Gear Bag was designed and manufactured by R&B Fabrications. This was designed to hold a turnout coat, helmet, boots, and miscellaneous equipment. There is a window ID and outside zipper pocket for extra gloves and small items. Made of heavy Cordura® nylon, it uses #10YKK nylon zipper and a 2” web handle to support the load. The bag weighs 26 oz., has an area of 4,200 cu. in. and overall dimensions of 24”L x 13 1/2”H x 13”D.

The Extra Large Turnout Gear Bag is constructed with the same materials as the regular turnout gear bag except it is 25% taller. There is plenty of room to spare after setting your boots and bunker pants on one side and coat and helmet on the other side. The top has a window ID for ease of identifying bags. The #200BK XL-WINDOW features a clear vinyl pocket on the front of bag that allows labeling by inserting a printed page. Made of Cordura® nylon. The bag weighs 31 oz., has an area of 5,200 cu. in. and overall dimensions of 24”L x 13 1/2”D x 16”H.
GEAR BAGS

ECONO GEAR BAG
#198FFXL
Designed to hold turnout coat, pants, helmet, boots, and miscellaneous equipment. A 1 1/2” web handle supports the weight of the bag’s contents. This bag is 25% larger than the average gear bag on the market. Made of heavy Cordura® nylon with a urethane coated back, it has a #10YKK self-repairing nylon coil zipper. The logo Firefighter is in gold print. It is available in red and weighs 30 oz. There is 5,200 cu. in. and the overall dimensions are 13 1/2” x 16” x 24”.

SUPER-SIZED XXX GEAR BAG
#200MC XXX   RED W/MALTESE CROSS
The king of the gear bags. The image shown has one set of gear with room to spare. An extra long handle of 2” web allows it to be carried over your shoulder or as a backpack. Same construction and features as the #200MCXL, featuring Cordura® nylon and a #10YKK zipper. This bag weighs 36 oz., has an area of 7,200 cu. in., and overall dimensions of 15”W x 16”H x 30”L.

KIDS GEAR BAG
#200MINI   MINI GEAR BAG
A scaled down version of the Original Turn Out Gear Bag, we brought to the marketplace more than 40 years ago. This bag is ideal for your kids or as a shift change bag. This bag is made of red nylon pack cloth, and weighs 12 oz. The overall dimensions are 16”L x 10”W x 10”H.

Contents not included

Size comparison between the Extra Large Gear Bag and the Super-Sized XXX Gear Bag.
SUPER-SIZE ECONO GEAR BAG
#198FF-XXX
The XXX Econo Gear Bag holds a complete set of full bunker gear with room to spare for extra equipment. A 2” web handles support the weight of the bag’s contents. Made of Cordura® nylon with a urethane coated back, there is a #10YKK self-repairing nylon coil zipper. The logo Firefighter is in gold print. It is available in red and weighs 35 oz. There is an area of 7,200 cu. in. and the overall dimensions are 30”L x 15”H x 16”D.

PINK ECONO GEAR BAG
#196XL PINK
Designed to hold turnout coat, pants, helmet, boots, and miscellaneous equipment. A 1 1/2” web handle supports the weight of the bag’s contents. This bag is 25% larger than the average gear bag on the market. Made of heavy Cordura® nylon with a urethane coated back, there is a #10YKK self-repairing nylon coil zipper. The logo Firefighter is in black print. This is available in pink and weighs 30 oz. There is an area of 5,200 cu. in. and the overall dimensions are 13 1/2”W x 16”H x 24”L.

THE R&B GEAR BAG
#199-U
Constructed using Cordura® nylon that is extremely durable and abrasion resistant, yet remains soft to the touch even in sub-zero weather conditions, this Cordura® fabric has a Urethane coating that helps repel liquids and dirt. This bag features a large “U” shaped #10YKK heavy duty zipper, handles that are constructed of heavy weight 2” nylon webbing and attached on top and on both ends of the bag, and an end pocket designed to hold your SCBA or personal items. It is available in red and weighs 30.4 oz. The overall area is 6,000 cubic inches and the overall dimensions are 13”W x 18”H x 26”L.
THE R&B ROLLER GEAR BAG
#197BK-W
#197MC-W
The Roller Gear Bag by R&B Fabrications, Inc. is the highest quality wheeled bag available. Constructed using Cordura® nylon, it is extremely durable and abrasion resistant, yet remains soft to the touch even in sub-zero weather conditions. This Cordura® fabric has a Urethane coating that helps repel liquids and dirt. The Roller Gear Bag employs a large “U” shaped #10YKK heavy duty zipper to make loading the bag quick and easy. Handles are constructed of heavy weight 2” nylon webbing and are attached on top and on both ends of the bag to improve handling. There is an attached end pocket designed to fit your SCBA or personal items. The Roller Gear Bag is mounted on an expandable aluminum wheel frame that connects to a 1/8 inch stress relieved polypropylene plastic skeleton inside the bag. This design allows more room inside the bag and gives you the option to replace the wheel frame or internal plastic skeleton, should either of them ever get damaged in transit. The frame design also allows you to store the bag horizontally or vertically while always maintaining a 2” ground clearance. The roller frame handle can extend up to 44 inches allowing the bag to be pulled behind the user with plenty of heel clearance. It is available in red or black and weighs 120 oz. There is an overall area of 6,000 cubic inches with overall dimensions of 13"W x 18"H x 26"L.
WIDE MOUTH GEAR BAG
STEP IN STYLE
#194MC
The zippered top of this bag allows it to be easily unloaded and loaded with your complete set of turnout gear, along with miscellaneous items. A 1 1/2" strap runs completely under the bag and Velcro® strips hold the handles together for a quick trip. Made of red Cordura® nylon, there is also a #10YKK black zipper. This weighs 30 oz., has an overall area of 5,700 cubic inches with overall dimensions of 24”L x 17”H x 14”W.

“IT'S THE BIG ONE” OVERSIZED GEAR BAG
#911IM-RD
This super sized gear bag has plenty of room for extra equipment or supplies. Made from textured nylon, this bag remains soft and pliable even in cold weather. There are 5 various sized pockets. The left side pocket measures 16” x 17” x 8”, and is large enough to hold a New Yorker Style Helmet. The right pocket will hold a SCBA Mask and extra items. An ID Window, carrying handle made of 2” webbing with a handle wrap to keep handles together are some of the features. It is available in red and weighs 48 oz. There is an area of 8,300 cubic inches and overall dimensions of 32”L x 17”D x 16”H. Imported.

SHOULDER STRAP FOR
OVERSIZED GEAR BAG
#913IM
Shoulder strap for 911IM, this is 2” with swivel snaps. It comes in red and weighs 7.2 oz., with a length of 50”.
GEAR BAGS

PPE DUFFELS
#193BK-PPE - With logo
#193BK-PLN - Without logo
Overall dimensions are 10"W x 10"H x 15"L
Overall area is 1500 cubic inches

#191BK-PPE - With logo
#191BK-PLN - Without logo
Overall dimensions are 12"W x 12"H x 18"L
Overall area is 2600 cubic inches

#192BK-PPE - With logo
#192BK-PLN - Without logo
Overall dimensions are 12"W x 13"H x 24"L
Overall area is 3750 cubic inches

Designed to carry personal protective equipment such as, gas mask or SCBA face-piece, protective suits, gloves, and other personal items, this is lightweight and durable. Constructed with nylon pack cloth, it is available in black and weighs 12 oz.

HAZARDOUS CHEMICAL SUIT BAG
#190 RD
This bag will hold a suit, boots, respirator, etc. A clear vinyl window on the side holds an inspection sheet. Made of Cordura® nylon, it is available in red and weighs 20 oz. There is an overall area of 3,600 cubic inches and overall dimensions of 23"L x 13"H x 12"W.

HAZ-MAT EQUIPMENT BAG
#195RB
Made on the same principle as our 200MC (page 57), it can be used to hold your hazardous materials clothing or other related items. There is an outside pocket for extra gloves and small items. A 2" web handle helps support the weight. Made of Cordura® nylon, the Haz-Mat Equipment is in yellow lettering. It is available in royal blue and weighs 26 oz. There is an overall area of 4,200 cubic inches and overall dimensions of 24"L x 13"H X 13 1/2"D.
HEALTH SAFETY KIT BAG

#193Gray
Health Safety Kit Bag
The Health Safety Kit Bag holds supplies used to collect and secure turnout gear that is contaminated from a fire or any situation that one may come in contact with while on a scene. The Health Safety Kit Bag was designed with new NFPA standards in mind. The bag is made of 22 oz. vinyl, with #10 YKK heavy duty self repairing nylon zippers, a 2” web handle, and an attached shoulder strap for easier carrying. Health Safety Kit is in black lettering and there is an R&B Tuff Bottom for protection of the bag on any surface. It is available in gray and weighs 46 oz. The overall dimensions are 24”L x 12”W x 12”H.

Suggested Supplies for your Health Safety Kit: (not included)
• Large polyethylene bags – large enough to hold a complete set of bunker gear (equivalent sizing would be a “drum liner” for a 35 or 40 gallon drum).
• Nitrile gloves
• Safety glasses
• Decontamination wipes – single use disposable
• Ziploc® style bags of various sizes for small personal items
• Tyvek® Level “C” Entry Suit
• Eye-wash
• Bottle of soap
• Scrub Brush
THE IRON SLING
#IRS-125
The Iron Sling locks together a force ax and a halligan tool. This perfectly balanced sling lets you carry both tools hands free. The Iron Sling does this by securing the ends of the tools to create a balanced unit that can be worn by the firefighter. A quick release heavy duty carabineer allows for easy removal. This strap weighs 5 oz.

TURN OUT GEAR STRAP / “AKA” BUNKER BELT
#M/S-TOGS
This is designed to transport or store your turnout gear. The strap encompasses your boots and bunker pants with your coat lying across the top. The adjustable strap allows you to cinch up your bunker gear in one bundle. Four carabineers allow you to attach your helmet, tools and a SCBA mask storage bag to the Turn Out Gear Strap. An adjustable, removable shoulder strap is also included. A Nexus 2” adjustable side release buckle allows you to quickly release and remove the strap when your gear is needed. The open air design allows your gear to dry quickly. The Turn Out Gear Strap is also equipped with a molded rubber carrying handle sewn to the top for easy transport. 2” polypropylene webbing construction with all stress points box “X” stitched and Dacron thread reinforcement makes the Turn Out Gear Strap extremely durable for many years of dependable service. It is available in either red or black and weighs 18oz.
THE MILWAUKEE CHIN STRAP
#NX-3412
The ability of this chin strap to be separated and joined again when wearing breathing apparatus is its most outstanding feature. The design of the chin strap allows a firefighter to quickly and easily secure the fire helmet after a face piece is on. Mask or inhalation hose do not interfere. The helmet is secure while engaged in fire attack, permitting more freedom of movement. Another unique feature is that a firefighter can remove helmet without removing the face piece. There is no interruption of air supply if the helmet must be removed. The Milwaukee Chin Strap is a revolutionary method of improving firefighting safety. This weighs 2 oz. and has a length of 14”.

NOMEX GLOVE STRAP
#550
The glove strap is made of Hi-Air components (flame retardant), special woven hook and loop tapes made of a Nomex composite. This strap will not melt and run down your coat like the nylon and poly web straps currently on the market have a potential to do, should you fail to remove it. The strap wraps around a pair of firefighter gloves and can be attached to turnout gear with a glove friendly trigger snap hook. It is available in white and weighs 3 oz. with a length of 7”.

THE GLOVE STRAP
#GS-250YL
#GS-250RD
#GS-250BK
The glove strap attaches to the front of your firefighting coat and secures your gloves when they are not in use. It is a nylon strap with a glove friendly trigger snap hook and a Velcro® closure. It’s the smart and easy way to carry your gloves. It is available in yellow, red or black. The strap weighs 3 oz. and has a length of 7”.
LEATHER RADIO CASE
#BL-5487-RC-1
Deluxe Universal Radio Holder that is 5" tall and has a 2" strap. This weighs 6 oz.

LEATHER RADIO STRAP
#BL-6543-XL
The radio strap is 1-1/4" wide and made of heavy duty black leather. The length is adjustable and it is available in an extra large for firefighters over 6' 1". Your speaker mic attaches to a leather loop for easy access. The strap can be used over either shoulder. This weighs 10 oz. and has a length of 65".

LEATHER ANTI-SWAY STRAP
#BL-5425-1
The anti-sway strap clips to the radio strap and your turnout gear to keep your radio close. This weighs 3 oz. and has a length of 8".
2” HEAVY DUTY SHOULDER STRAP  
#153BK  
A two inch wide adjustable web strap with shoulder pad and heavy swivel snap. The strap is black, weighs 6 oz. and has a length of 48”.

RADIO CHEST HARNESS  
#1245  
A radio chest harness will hold most hand held portable radios and is designed to be worn on the chest. The front has a microphone strap, loops for excess cord, padded radio holder, a small miscellaneous pocket that will hold a pager or extra radio batteries, and a pocket for a notepad or maps. It is available in black and weighs 6 oz. The overall dimensions are 10”W x 11”H.

DUAL - TWIN RADIO CHEST HARNESS  
#1246  
This radio chest harness provides you with different ways to hold and stow items needed during a crisis situation. There are: 2 adjustable radio holders, a pouch for gloves or additional radio batteries, external pen/pencil holders, elastic loops for securing a flashlight or glow sticks, an internal pocket for maps or notebooks, and a zippered pouch for smaller items. The harness is held in place with adjustable waist and shoulder straps and has a reflective strip for higher visibility. It is available in black and weighs 14 oz. The overall dimensions are 11 1/4”W x 10 3/4”H.

Contents not included
DELUXE WEB RADIO CASE  
#385BK  
Wear it on your belt, sling it over your shoulder, or attach it to a web harness, this is fully adjustable in length and girth. Constructed of Velcro® and heavy webbing, a mini bungee cord and Velcro® secure the radio. This fits all current radios. An adjustable shoulder strap is included. This weighs 5.84 oz. and the strap is 56” in length. The overall dimensions are 3”W x 6 1/2”H.

--------------------------

HI VIZ RADIO HARNESS  
#387-HIVIZ  
Keep communication close at hand with the R&B Hi Viz Radio Harness. This fully adjustable radio harness will conform to fit any model. The anti-sway strap keeps the radio in place at all times. This weighs 12 oz. The harness is 46 1/2”L, the anti-sway strap is 9 1/2”L and the radio pouch is 6 1/2”L.

--------------------------

LARGE PAGER CASE  
UNIVERSAL FIT  
#295BK  
#295BK-C (Heavy Duty Clip)  
New Style Pager Case holds all pagers from a Minitor I thru Minitor VI and Unication. Made of heavy Cordura® with a urethane coated back for water resistance, the pocket flap is held in place with a hook and loop closure. The edges are bound with nylon binding, which protects the pager from dust and rain. There is a web loop for a mini mag light. Available with belt loop or metal clip, this weighs 4 oz. The overall dimensions are 3.75”H x 2.5”W x 1.5”D.
AIR PACK COVER
#421RD
This protects your SCBA from dust and foul weather. Mounting brackets (not provided) mount inside to the flat surface to hold SCBA. The inside pocket holds a mask. A #10YKK nylon zipper opens on the front for easy removal. Made of 22 oz. vinyl, this is available in red and weighs 30 oz. The overall dimensions are 31"H x 15"W 12"D.

SCBA MASK BAG
YUKON MICRO LINED
#427RD
#427YL
This nylon SCBA Mask bag is lined with a soft fabric to prevent scratches. It features a Velcro® closure, D-ring for hanging and an ID window. It is available in red or yellow and weighs 8 oz. This is 14"H and has a diameter of 9".

SCBA MASK BAG
FLANNEL LINED
#940 IM-RD RED
This nylon SCBA mask bag is lined with soft flannel fabric to prevent scratches to the face piece. It features a Velcro® closure, D-Ring for hanging and an ID Window. It is available in red and weighs 7.2 oz. The overall dimensions are 14"H with a diameter of 9". Imported.

SCBA MASK BAG
UNIVERSAL MOUNT
#425RD
#425YL
Holds your SCBA air mask. Cordura® nylon construction with 4, #1 brass grommets which allows it to be hung with the flap up or down. It is available in red or yellow and weighs 5 oz. The overall dimensions are 14"H x 9"W x 6"D.

All bags will hold any SCBA Mask.
SCBA/GAS MASK BAGS

GAS MASK / RESPIRATOR BAG
#430BK
Easily accommodates all types of masks and respirators and provides the responder with a convenient method of transporting the device leaving the hands free for additional items. It is available in black and weighs 13 oz. There is an overall area of 475 cubic inches and overall dimensions of 10 ½”H x 7 ½”W x 6”D.

- 1000 Denier Cordura® Nylon plus web-reinforced hem with tri-fold corners
- Side release Nexus buckles for closure
- 1 ½” web belt drop with quick release buckle
- 1 ½” web leg strap

AIR MASK BAG
FOR ATTACHED REGULATOR
#426RD
#426YL
Made to hold your SCBA mask while leaving it attached to the regulator. Made of Cordura® nylon, this hangs by a spring snap. It is available in red or yellow and weighs 5 oz. The overall dimensions are 14”H x 10”W x 4”D.

SMALL AIR MASK BAG
#418RD
Made of Cordura® nylon and vented to allow the mask to dry, this bag is designed for an air mask with removable face piece regulators. The D-ring on the back allows for easy hanging. It is available in red and weighs 8 oz. The overall dimensions are 6”H x 7”W x 8”D.
WATER RESCUE THROW BAG WITH 75 FT. ROPE
#230R
There is a drawstring in one end with a web carrying and throwing handle and on the opposite end there is a grommet in the center. This contains 75 ft. of floating 3/8" polypropylene rope and a float. The overall dimensions are a length of 12", a diameter of 10", and a circumference: 31.4". This weighs 29 oz.

How to use: The initial throw should be made by placing your hand through the rope’s loop at the open top section of the bag. Hold the loop securely and throw the bag toward the victim. All subsequent throws should be made by loosely coiling the rope, then throw bag and rope together. The increased weight of the wet rope and bag will aid in reaching the victim.

SMALL ROPE BAG
#234RD
#234OR
This bag will hold 150’-200’ - 3/8” rope 80’-100’ - ½” rope. There is a 1” web handle and a #5 grommet in the bottom of the bag. It is available in red or orange and weighs 6 oz. It is 13”L with an 8” diameter and a 22” circumference.

MEDIUM ROPE BAG
#235RD
#235OR
This bag will hold 250’-300’ - ½” rope or 200’-250’ - ⅝” rope. 1½” web handle. This bag holds the rope that most rescue squads are required to carry. There is a #5 grommet in the bottom of the bag. It comes in red or orange and weighs 11 oz. It is 14”L with a 12” diameter and a 37” circumference.

LARGE ROPE BAG
#236RD
#236OR
This bag will hold 500’-600’ — ⅝” rope. It has a 2” web handle and a #5 grommet in the bottom of the bag. It comes in red or orange and weighs 14 oz. It is 15”L with a 17” diameter and 51” circumference.
ROPE BAGS/MISCELLANEOUS ACCESSORIES

FLARE CONTAINER
#SAC-FC-30
Keep your flares handy, dry, and damage free. The FC-30 flare container holds twelve, 30-minute flares. It is small enough to store anywhere and includes a handle. Molded from durable plastic that resists the wear and tear of tough use. It comes in red and weighs 7 oz.

LARGER HANDI WEDGE
#SAC-DW-YL
It is a great pocket tool to have for keeping doors open. Excellent for stopping water flow from sprinkler heads. This large rubber door wedge measures 5½”L x 1½”H x 1¼”W and weighs 2 oz.

DOOR MARKER DOUBLE PLAIN
#DDM-OR
During a fire some rooms are searched 2 or 3 times while others are never searched. The double door marker simply snaps over both knobs to prevent latching. Door markers are manufactured in day-glow color so they are highly visible and they can easily be recognized by touch when in place. They are convenient to carry and work better than using chalk or tape to mark doors. These weigh 1 oz.

HANDI WEDGE
#SAC-HW-OR
Our Handi Wedge does an excellent job of stopping the water flow from sprinkler heads. They also work well as doorstops and have countless other applications. They measure 2”L x 1”H x 3/4”W and weighs 1 oz. each. They are sold as a pair.

### R&B Fabrications, Inc. Warranty

R&B Fabrications, Inc. guarantees all of our products against defects in materials or workmanship for the reasonable life of the product, unless the product has been worn out, misused, or abused, as determined by our examination. If a product should fail, we will repair or replace the item, at our option, with no charge to you, as long as our label remains unaltered on that product. Damage caused by improper care, accident or misuse will be repaired at a reasonable price. Any item returned for repair must be clean and sterilized.
CUSTOM & CONTRACT SEWING AVAILABLE
R&B Fabrications, Inc. can help you bring your product to market. We have been in the cut and sew business for almost 50 years. We provide exceptional quality to our customers.

- Design and pattern assistance to develop your idea
- Full cut and sew manufacturing completed in house
- We will build your product exactly to your specifications
- Minimum quantity of 24 pieces, in most cases
- Direct print and custom screen print available
- American Made
- Berry Amendment compliance capability

CARE AND CLEANING INSTRUCTIONS
- When opening and closing zippers, pull slightly outward as this will reduce binding.
- Before washing, remove all inner lining(s) and straps, including foam padding.
- Treat stains with a household stain remover. Test for color fastness in an inconspicuous location.
- Machine wash on delicate cycle, in warm water, using household detergent and hang to dry. If foam padding was not able to be removed, please allow for extra drying time.
- Treat with a fabric protector, when the product is completely dry.
- For infection control cleaning, NFPA 1581 guidelines in sterilization and disinfecting should be followed whenever possible.
MEET THE R&B FABRICATIONS TEAM

At R&B Fabrications, we are more than 9 to 5 employees; we are a family. We have real-life experiences that have come together to produce exceptional products. Some of us have firefighting and EMS experience, which gives us an edge in developing our products. This shows in the unique make and durability that our products have. At R&B Fabrications, we are truly proud of our family and grateful for their efforts and loyalty.

To our customers, thank you for allowing us the opportunity to provide you with genuine, time-tested, American-made products that we wholeheartedly believe in.

Proud to be “Made in the USA”

R&B Fabrications, Inc knows how important it is to keep manufacturing in the USA. We specialize in contract sewing and custom fabrication. R&B can help bring your vision to life from drawing to the final product in days. Ask how to make your vision a reality!

Fire, EMS, and safety equipment bags are the foundation of R&B products. Our history in producing the finest gear has kept first responders focused on their mission and not worried about their supplies. We believe in quality-focused, American-made products that come with a lifetime warranty. R&B Fabrications does all of this and more from our facility that is located in a small town in northwest Ohio.

A veteran-owned, family-operated company manufacturing fire, EMS & safety equipment bags in Oakwood, Ohio, since 1971
